# PORTOFOLIO

# ABOUT ME

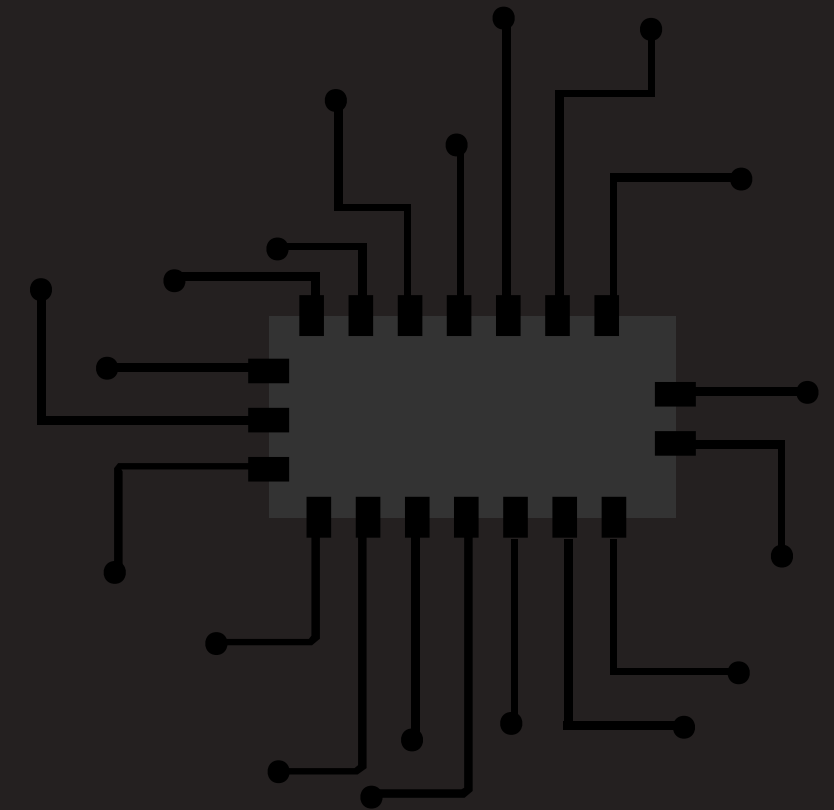

I am Ayman Mostafa Negm, a passionate Data Science Enthusiast dedicated to innovation and continuous growth. My journey in technology began with an exploration of cloud computing, where I gained experience in AWS, Azure, and cloud infrastructure management. Over time, I expanded my expertise into cybersecurity, IoT, and data analytics, focusing on creating impactful solutions that drive progress and leave a meaningful mark on both the tech industry and society.

# EDUCATION

## MSA University

Computer Engineering 2023 - present

# WORK EXPERIENCE

[My Work](#)   [Work Experience](#)   [Education](#)   [About Me](#)   [Cover](#)

## **Data Analysis Project**

Converted raw datasets into meaningful visualizations using Python, SQL, and Excel.

Focused on deriving actionable insights for decision-making processes.

## **IoT-Based Baby Monitoring System**

Developed a safety and comfort monitoring system using IoT technologies.

Utilized the Master of Things platform and motion-tracking sensors to ensure real-time updates.

## **Library Management System**

Designed and implemented a library management system using C++ for efficient book tracking.

## **E-Commerce Website**

Built a full-stack e-commerce platform with Django for backend and Bootstrap for frontend.

Deployed the solution on a cloud server for scalability.
